### 1. Application:

The enclosure protects the recorder against unauthorized access or theft. The enclosure is made of steel with a thickness of 1mm. It is equipped with lock and two tamper switches, indicating enclosure opening and detachment from the wall.

Due to the vertical installation and low depth, it is ideal for places where deeper enclosures or cabinets type Rack19" cannot be installed.

After opening the enclosure, the front cover is held in a horizontal position, providing easy access to the buttons on the front panel of DVR.

The enclosure is fitted with a special adjustable handle for installation of recorders with the following dimensions: width from 245 mm to 445 mm, height: from 40 mm to 100 mm.

In addition, the fan with a temperature sensor, product code ARAW45, can be mounted to the enclosure.

#### GENERAL WARRANTY CONDITIONS

1. Pulsar (manufacturer) grants a two-year quality warranty for the equipment, starting from the production date.
2. The warranty includes free-of-charge repair or replacement with an appropriate equivalent (selected by the manufacturer) if the malfunction is due to the manufacturer. It includes manufacturing or material defects, provided that such defects have been reported within the warranty period (point 1).
3. The equipment subjected to warranty should be brought to the place of purchase or directly to the main office of the manufacturer.
4. The warranty applies to complete equipment, accompanied by a properly filled warranty claim with a description of the defect.
5. Should the claim be accepted, the manufacturer is obliged to provide warranty repairs, at the earliest convenience, however not later than within 14 days from the delivery to the service centre of the manufacturer.
6. The repair period mentioned in point 5 may be prolonged, if there are no technical possibilities to carry out the repairs, or if the equipment has been conditionally accepted due to the breaking warranty terms by the claimant.
7. All the services are carried out at the service centre of the manufacturer, exclusively.
8. The warranty does not cover the defects of the equipment, resulting from:
  - reasons beyond the manufacturer's control,
  - mechanical damage,
  - improper storage and transport,
  - use that violates the operation manual or equipment's intended use,
  - fortuitous events, including lightning discharges, power failures, fire, flood, high temperatures and chemical agents,
  - improper installation and configuration (failure to follow instruction).
9. The warranty is void in case of construction changes and repairs carried out by any unauthorized service center or in case of damage or modifications to warranty stickers and serial numbers.
10. The liability of the manufacturer towards the buyer is limited to the value of the equipment determined according to the wholesale prices suggested by the manufacturer on the day of purchase.
11. The manufacturer takes no responsibility for the defects that result from the damaging, malfunctioning or inability to operate the equipment especially when resulting from failure to comply with the recommendations and requirements contained in the manual.

#### WARRANTY

24 months from the date of sale, 36 months from the date of production.  
THE WARRANTY IS VALID only upon presenting the sale invoice for the unit for which the claim is made.
