Installation and Networking

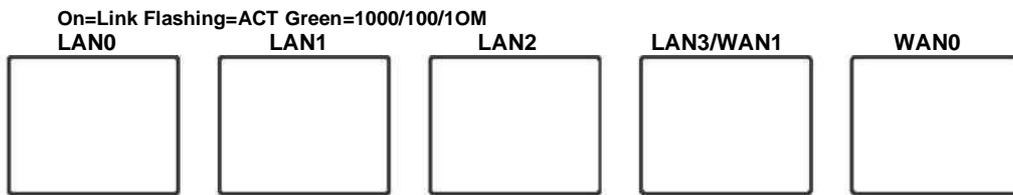

Installation

① Install the device on a stable cabinet or platform, and ensure airflow for proper ventilation.

② Connect the power supply as the image below.

③ Use the cable to connect WAN port to the Internet, and LAN port to switches, APs or other devices.

④ After properly installing the device and connecting cables, power on the device for configuration.

Networking

Method 1 (recommended)

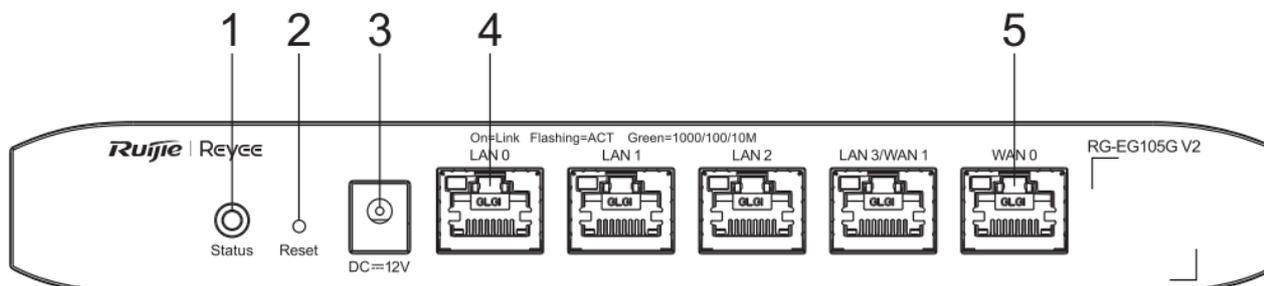

Scan the QR-code on the manual or device to download Ruijie Cloud App. Follow the guide on App to set up and configure the network.

Method 2

Connect to device SSID(default SSID: @Ruijie-mxxx), or connect the cable to the device LAN port and visit <http://192.168.110.1> to perform configuration.

Specifications

Specification	RG-EG105G V2	
Standard	IEEE 802.3, IEEE 802.3u, IEEE 802.3x, IEEE 802.3z	
Interface	5*10/100/1000M Base-T ports, supporting up to 2 WAN ports (Default: 1 WAN port, 4 LAN ports, port LAN3 can be switched as port WAN1)	
Power Consumption	The overall maximum output power is 6W.	
Dimensions (W x D x H)	206.5mm x 108.5mm x 28mm	
Operating Environment	Temperature	0 °C - 40 °C
	Humidity	10% - 90% RH, non-condensing
Storage Environment	Temperature	-40 °C - 70 °C
	Humidity	5% - 95% RH, non-condensing

CE Warning:

Operation of this equipment in a residential environment could cause radio interference.
