

CAMERA STABILIZER SK-40

The SK-40 stabilizer powers a camera with or without a thermostat. It works together with the power supply ZK-40/16, which is designed to deliver ca. 40V DC that is then stabilized down to 12V DC in the SK-40 and fed to camera with/without a thermostat.

SPECIFICATIONS:

Input voltage	40V DC
Output voltage	12V DC
Maximum output current @12V	900mA
Weight	184g
Dimensions	118 x 30 x 54mm
